RESPONSE FROM RESURRECTION CATHOLIC SCHOOL:

During 2011 Resurrection Catholic Church and School received inspections deemed compliant with health standards of Polk County. The health and well being of our parishioners and students are taken very seriously. On January 27, 2012 a Polk County health inspector visited the parish hall of Church of the Resurrection. The inspection on January 27, 2012 was deemed unsatisfactory and cited the following: "Live roach crawling in the kitchen and no hot water in employee restroom." Immediately, remedial action was taken and on March 8, another inspection was conducted and was deemed satisfactory.
